As a bride, you want to create an **unforgettable wedding**, an event with **dazzling details** and a party that your friends will be talking about for years to come as "the wedding"... right?

How do you do that? How do you get that **cohesive look** and **unique wedding style** that you see in magazines?

Creating a unique wedding style is more than just selecting a color palette and pretty flowers. To get that stunning wedding look and experience you first need to discover your wedding style, and we're going to help you! For the first time ever, award winning wedding designer Julie Gambrell of Classic Creations, will be sharing her secrets for designing a stunning wedding in a two part series of workshops.

We know designing a wedding can be overwhelming, there are so many options to distract, so we've simplified the design process for you! This is exactly the process we use with our clients, and we are sharing it with you!

You don't have to be creative to attend, you just have to keep an open mind and be excited about your wedding...and who's not excited about their wedding?!?

Session #1 - Discover Your Wedding Style

The best part of this series is that you will leave with a **complete wedding vision board** that you can share with your vendors so that everyone clearly understands your wedding style.

In this workshop:

Brides will discover their unique wedding style & we will define what the elements are that help you enhance that wedding style -Julie will share her award winning secrets for stunning design **on any budget**

- We will discuss how to select a truly amazing **color palette**, or add to enhance the colors you already have
- How to pull in your personality and add those details that will make your wedding different from every other wedding your guests will attend this year
-How do you place your vision in your venue, what to do if they don't match?

The majority of the time will be spent in the **hands on portion** utilizing what you've learned to create your wedding design board. During the hands on portion, vendors will be on hand to answer your questions & help with your vision board. Find out what paper items fit with your wedding style; florists will guide you to flowers that are in season & meet your budget.... and **bring your camera**...since we are at a linen rental company we can actually set up a variety of linen styles for you to review. Plus we will have inspiration tables, napkin folds, and chair ties for you decide on as many details as possible!

Session #2 - It's All About Timing

You've got the design style down, but design is not just about the look, it's also about the flow. In this workshop not only will you create a wedding agenda based on your actual events details, but we will also discuss how to create wedding reveals. **Wedding reveals** are unique ways to use your space or timing to stun your guests, and create that memorable event they'll be talking about for years to come! Julie will share her timing secrets that will keep your guests engaged and enjoying your wedding from beginning 'til end. Julie will share her **Agenda Template** she uses on every wedding, and walk you through **step by step** how to fill out each section. Brides will leave with a sample agenda done, and then receive a copy of the template via email so that they can do a final version to share with their vendors. Bring your contracts if you have them, if not that's ok, you will fill out the template with timing according to our years of experience. Then you'll have all the answers for your vendors when you do contract them!

ABOUT JULIE

Julie Gambrell is nationally recognized as a leader in the wedding field. Julie not only plans spectacular events in the Rocky Mountain region, but is also in high demand for destination weddings. Her unique gift is creating a unique, signature wedding experience. "I give brides and grooms the wedding experience they've always dreamed of, but didn't really believe they could have. What sets me apart from other wedding planners is my ability to read between the lines and transform a few vague ideas about what a couple really wants into a complete, tangible vision that perfectly captures the couple's style and priorities, right down to the last detail."

Most recently, Julie's work has been featured in Destination I Do Magazine, Inside Weddings Magazine, Bride and Bloom, The Knot, & Modern Bride. Her work as been showcased on popular wedding blogs including Style Me Pretty, Couture Colorado, & Wedding Chicks. She's also won best wedding planner in "The Knot Best of Weddings" multiple times as well as being voted as Top Wedding Planner by Couture Colorado.
